---

	Serial Numbers:	Version
1	S4SR-CG9F-57DN-XFUN	4.x New License

Software Download: [www.sourceinsight.com/download](http://www.sourceinsight.com/download)

User Manual: [www.sourceinsight.com/support](http://www.sourceinsight.com/support)

### Installation and Activation

When you launch Source Insight, the **Manage License** window will appear.

If not, select **Help > Manage License**. Select 'Enter a purchased serial number'.

Enter your serial number to activate your license. Source Insight requires an initial activation over the Internet to authenticate your license.

**If you don't have an Internet connection:** The activation process will defer for a while until you have Internet connectivity, so you can still work with it.

If your machine will never have an Internet connection, we can send you an activated license file via email. Please email a request to [activation@sourceinsight.com](mailto:activation@sourceinsight.com) and provide the following:

1. Your name
2. Your company or organization (if applicable)
3. Your license serial number

For more information see the Getting Started Guide.
